Spring trends we love!

Seasonal wreaths and décor

Changing your accessories with the seasons brings a fresh new look to the exterior of our property. When hanging wreaths please remember to use 3M adhesive hooks, as these won't damage the finish of your door should you choose to remove them.

Fresh colour palettes

Embrace the vibrancy of Spring by choosing a light and fresh finish for your Endurance door. Duck Egg and Claystone may be some of our seasonal favourites, their timeless charm ensuring a refreshing touch all year round.

Traditional details

As with the sunshine, Spring brings a fresh new look to our Country Collection. With light airy colours and heritage style hardware, this season is perfect for those looking to add a sophisticated countryside touch to their home.
